Current Situation Predicament and Countermeasures of Chinese Teaching in Mauritius

GAO Yan

International College of Chinese Studies East China Normal University Shanghai 200062 China

Abstract English French and Mauritian Creole widely used in Mauritius and Chinese belongs to the national education system with other oriental languages. In recent years due to the rapid development of China the demand for Chinese language learning is increasing but there are many unfavorable factors that lead to Chinese teaching many difficulties in which weak teacher force has become a bottleneck of restricting the development of Chinese teaching. Training existing teachers and recruiting or bringing up high-quality quasi-teachers are the two main ways.

Key words Mauritius Chinese teaching current situation teacher force countermeasure
