HOU Hongyu

School of Chinese Language and Literature Beijing Foreign Studies University Beijing 100089 China

The Chinese language education in high schools play an important position in Japan and the study of it would help to grasp the development venation of Chinese language education in Japan and implement the dissemination strategy of Chinese language. In the meantime it can also provide a basis for nationalized study on Chinese textbooks teaching method testing and evaluation. The paper aims to present the overall appearance and characteristics of Chinese language education in high schools in Japan by investigating the policy curriculums teaching team syllabus and textbooks.

Japan high schools Chinese language education
